INDIVIDUAL REFEREE PROCEDURE

The data of each FIBA Active Referee are kept in FIBA Computerized Information System called FIBA New Applications (FNA).

Those data are constantly updated either by entering the data for the newly licenced FIBA Active Referee or for any changes which needs an updating (change of the address, tel. or e-mail address etc).

1. Each FIBA Referee Candidate, participating at any official FIBA Clinic for Referee Candidates must provide the FIBA Instructor with the following:

- Individual Referee Information Form (IRIF).
- One (1) color passport size photo, having the name of the person written on the reverse side of the photo.
- A copy of passport.

In order to facilitate the procedure, each referee is invited to complete IRIF already at home before departure and to bring it to the clinic already completed.

2. Each FIBA Active Referee is requested to provide FIBA with any type of the changes of the data at the original IRIF.

In order to complete IRIF please open the pdf form and fill in the respective fields with your data.

Please print the form and provide it together with the photo and copy of the passport to the FIBA Instructort.
