

Additional requirements for Electronic Scoreboards

Purpose of the test programme

The test programme is designed to verify the FIBA requirements and to establish repeatable tests for the qualifying of Electronic Scoreboards for FIBA certification.

Test requirements

All tests will be carried out at room temperature, except when special requirements are indicated in the test programme.

Tests

The tests are based on the specifications as listed in the latest Official Basketball Rules 2008 of FIBA.

Control Test

During the validity of the certification, the FIBA Research & Study Centre reserves the right to request that one model of the Electronic Scoreboard Units shall be made available for a control test according to the test programme.
